

Shadow Spaces

Cloud Collaboration Management
for Cisco Spark

*monitor, measure, manage ...
empower productivity!*

Shadow Spaces for Cisco Spark is a scalable cloud-based administrative teams spaces and participants management system

Communication managers can measure, monitor and manage complex collaboration ecosystems to increase adoption, ensure project progression, study patterns of activity, improve quality of experience and empower productivity!

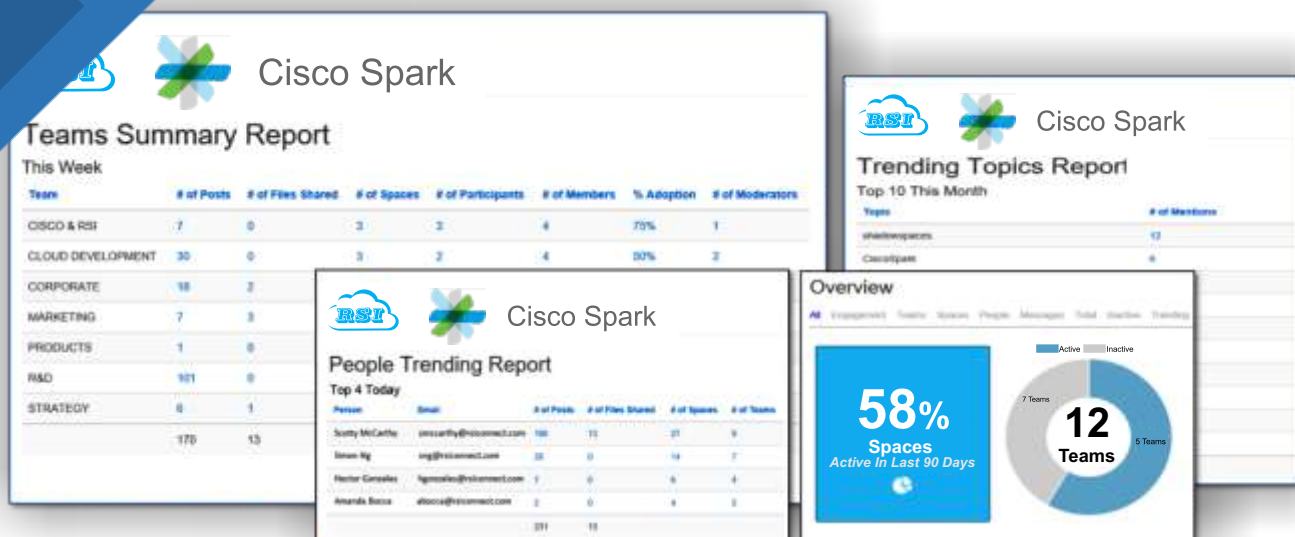

A collage of screenshots from the Shadow Spaces interface. It includes a 'Teams Summary Report' with a table of team metrics, a 'People Trending Report' with a table of top participants, and an 'Overview' card showing a 58% adoption rate. A 'Preferred Solution Partner' badge for Cisco is also visible. Several icons (rocket, video camera, @ symbol) are overlaid on the screenshots.

*Increase Adoption

Shadow Spaces

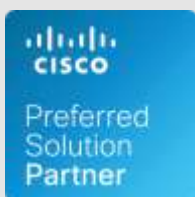

Cloud Collaboration Management
for Cisco Spark

The success of most organizations is directly related to their ability to engage partners and customers in a professional and timely manner. Communication is the lifeline of every business.

A well oiled communication ecosystem is a key ingredient in increasing efficiency, reducing operating costs, enhancing customer satisfaction and exceeding financial objectives. The advent of the agile workforce and the vast adoption of Cisco Spark cloud collaboration spaces has created the need for more dynamic communication management metrics anywhere, anytime.

Cisco Spark's collaboration spectrum including messaging, file share, video, calls and meetings sets the standard for modern communication. RSI Shadow Spaces Cloud Collaboration Management offers communication managers consolidated business intelligence about the behavior or progress of their teams in Cisco Spark. Shadow Spaces empowers productivity!
